

**Martin Junction Upgrade
Progress Update
20th-24th February 2023**

Please see below details of proposed Traffic Management Plan as part of upcoming works on the above scheme. The upcoming phase involves tying in the main body of the junction to all remaining areas.

To date the Traffic management has broadly followed the existing alignment of the Roundabout. However, this phase will require temporary lane closures and associated traffic diversions. Access around the roundabout will be reduced at night to facilitate the works. See details below.

Traffic Diversion: Monday 20th Feb through to Friday 24th Feb (19:00-06:00hrs).

- Signed Diversions will be in place.
- The roundabout will reopen during daytime hours.
- **Note:** for access to **Galway Clinic**, please follow diversion signage. Clinic opening hours will remain as normal.
